

UID EX 10

AIM:

The aim is to create data visualizations, such as pie charts and bar graphs, for an inventory management system using JavaScript.

PROCEDURE:

Step 1:

Set Up Your HTML File

```
<!DOCTYPE html>

<html>

<head>

    <title>Inventory Dashboard</title>

    <link rel="stylesheet" href="style1.css">

</head>

<body>

<h2>Inventory System - Bar & Pie Chart</h2>

<canvas id="barChart"></canvas>

<canvas id="pieChart"></canvas>

<script src="https://cdn.jsdelivr.net/npm/chart.js"></script>

<script src="script1.js"></script>

</body>

</html>

body {

    text-align: center;

    font-family: Arial;
```

```

        background: #e3f2fd;
    }

    canvas {

        width: 60% !important;

        margin: 20px auto;
    }

```

Step 2:

Create the JavaScript File for Charts Next, create a JavaScript file (script.js) to handle the data visualization logic.

```

const items = ["Shoes", "Bags", "Watches", "Clothes"];
const quantity = [40, 60, 30, 90];

// Bar Chart
new Chart(document.getElementById("barChart"), {
    type: "bar",
    data: {
        labels: items,
        datasets: [{
            label: "Stock",
            data: quantity,
            backgroundColor: ["red", "blue", "green", "orange"]
        }]
    }
});

// Pie Chart
new Chart(document.getElementById("pieChart"), {
    type: "pie",
    data: {
        labels: items,
        datasets: [{
            data: quantity,
            backgroundColor: ["red", "blue", "green", "orange"]
        }]
    }
}

```

```
});
```

OUTPUT:
